SCOTT'S LITTLE GIANT CORN AND COB

THERE are features connected with this Mill worthy of consideration and close examination on the part of those wishing to purchase a Feed Mill.

Its mechanical construction and adaptation to the purposes designed to crush and grind ear corn. Its great capacity, while doing an immense work with extraordinary ease, its durability is amply provided for. The complete and entire portableness of the little Giant, rendering its case, its durability is amply provided for. The complete and entire portableness of the Little Giant, cendering its greater convenience for plantation and form the impossible. It requires no mechanical aid or bill of expense to put it up, any farm hand or servanican put up and set one running in half an bours time. The convenience with which the sweep may be applied to run borizontal—as is most usual—or over head, and the mill may be easily attached where steam or water is used. The power it takes, requiring one and two horses. The quantity and quality of product, 18 to 80 bushels of good feed meal per hour, according to the degree of fincteess ground, and the size coording to the degree of fineness ground, and the size till. It is the chespest mill, all things considered, there

is before the public.

Another thing connected with the Little Giant, as a patent, and worthy of note, is the fact that there has been no ent, and worthy of note, is the fact that there has been no Putent Right speculating or huckstering about the country, as is usual with the thousand bungling make shift implements that are got up as a trade—merely to get money by selling or pulming off the putent right upon the credulous—then the machine to be abandoned by all parties as a humbug; on the other hand the Putentee and Proprietors of the Lith Cheer Wills. of the Little Grant Mills, believing that they can—and de-termined that they will supply the Agriculturalists and Stock raisers of our country with a superior Mill, are per manently engaged in the business, and have over one hun-dred thousand dollars invested in the manufacture of these mills, in the East, West and South, some of these establish ments employing 60 men solely in this business. So highly are these mills appreciated, that four thousand have been sold within the pass eighteen months, and the heaviest and the most extensive Manufacturers of Agricultural implements in the United States have eagerly sought an interest in their manufacture and sale.

No implement has been more thoroughly tested; no one of the kind has received so numerous and high testimoniais from Mechanics Institutes and Agricultural Associations, and none by reason of substantial, practical utility and merat have more fairly ground their way into every day use and popular favor than Scott's Little Giant Corn and Cob Mill. neughborhoods, warrant us in saying it is one of the best, if not the very best Cough Medicine now before the public.—
It almost invariably relieves and not unfrequently cures the very worst cases. When all other Cough preparations have failed, this has relieved the patient, as Druggists, deaiers in Medicines, and Physicians can testify. As a the Agent is your mearest town, what has been his experience of the effects of this medicine. If he has been selling it for any length of time he will tell you it is the best medicine exhant. Below we give a few extracts from letters we have received lately regarding the virtues of this medicine. Bellow we give a law extracts from letters we have received lately regarding the virtues of this medicine.

Dr. S. S. Ostin, of Knoxville, Gn., says:—I have been using your Liverwort and far very extensively in my practice for three years past, and, it is with pleasure I state my belief in its superfority over all other articles with which I am acquainted, for which it is tecommended.

Mesers, Fitzgerald & Benners, writing from Waynesville, N. C., says:—The Liverwort and Tar is becoming daily more popular in this country, and we think justly so. All who have tried it speak in commendable terms of it, and any its very beneficial in alleviating the complaints for which it is recommended.

is recommended.

Our Agent in Pickens District, S. C., Mr. S. E. McFall, Our Agent in Pickens District, S. C., Mr. S. M. McFall, assures us that he uses twitin great bonefil in his own family and recommends it to nuneighbors. He gives an instance of a negro woman in his vicinity, who had been suffering with disease of the lungs for years, attended with severs cough, who was relieved by the Liverwort and Tar.

Such are the good reports we hear of this Medicine from all parks of the South. For a report of the surprising cures thus performed in the Western and Northern and Essiern Stales, we would invite the suffering patient to read the pain-philet which accompanies each bottle. To all we say, have hope, have hope.

FARMERS AND STOCK RAISERS. I offer you a Corn and Coh Mill unsurpassed in the Union, and which cannot be superceded by past or future took Kaiser should have; it will crush from 8 to 10 bushels Corn and Cob per hour, with one horse; is easily fitted up and managed; weighs \$40 lbs., and as all contact of the grinding surfaces is prevented, will last any farmer an or-dinary lifetime. I speak thus of its durability because the same principle has been fairly tested in the old Bark Mill. Who is it that wants

A MILL ON TRIAL for one month, and if it don't give complete satisfaction, to return it? If there he any man thus disposed, let him now speak. Satisfaction is warranted in ever y case, or the money will be refunded. This Crusher can be attached to horse, water or steam power, which renders it the most convenient Mill south of Mason's and Dixon's line. All other Crushers now in the south require too much power, or will soon wear out. According to THE LAWS OF NATURE

a Corn and Con Mill which admits of a lateral or wabbling notion, will, necessarily, soon wear out; all other Crushers are amenable to this grand objection, and the Proprietors fare not dispute it. In the construction of "Young Anguica," I have gained power, and I defy contradiction; I have lessened friction, and I challenge one word to the contrary, I have prevented a wabbling lateral motion, and all are compelled to acknowledge it; therefore, I assert that it is far superior to any other Mill. I am now selling this Ten nessee invention at the small sum of FFFTY DOLLARS.

And any one wanting a "good thing," is carnestly re quested to examine the true merits and principles of this Mill, and order from the Proprietor or Agents. A liberal discount made to dealers.

l; and others. Fid space permit, we could give many hundred certifiextended and parts where the Fills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.

These Fills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drags themselves, but of the medicinal cirtues only of Vegetable remedies extracted by chemical process in a state of medic and orders in a state of medicinal cirtues only of vegetable remedies extracted by chemical process in a state of neutron and combined to extend the remedies. Virtues only of Vegetable remedles extracted by chemical process in a state of purity, and combined together in such a mannor as to insure the best results. This system of composition for medicloss has been found in the Cherry Pectoral and Pitts both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved, more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicines should be As it is frequently expedient that my medicines should be taken under the counsel of an attending physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mail to his request. to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists to their mystery. I have no mysteries.

The composition of my proparations is laid open to all men; and all who are competent to judge on the subject reedy acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial. their anticipations were riore than to an indicate on the internation of the powerful influence on the international transfer to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of discase.

MEDICAL.

THE ONLY INFALLIBLE REMEDY Hurley's Sarsavarilla.

OF all the remedies that have been discovered during the present age for the "thousand life that firsh is mir to," none equal this wonderful proparation. Only three years have elapsed since the discoverer (who spent a decade in studying, experimentalizing and perfecting it) first introduced it to the public, and it is sirendy recognized by the most eminent physicians is all parts of the country to be the most eminent physicians in all parts of the country to be the most environing and effective remedy for certain discases of which they have knowledge.

All other compounds or syrupe of the root have hitherto failed to command the sanction of the faculty, because, on boing tested, they have been found to contain noxionaingre, dients, which neutralize the good effects of the sarsaparitia, and oftentimes injure the health of the patient. It is not so with Hurriey's preparation.

This is the pure and genuine extract of the root; and will, on trial, be found to effect a certain and perfect cure of the following complaints and diseases:

Affection of the Hone,

Belling, Habitani Costiveness,

Belling,

indigestion, Liver complaint, Diseases of the Kidneys, Piles, Palmonary Discusse, Scrofula, or Kin, 's EvH, Syphilis, Dyspepsia Brysipelas, Female Irregularities, Fistula

And all Diseases of the Skia.

Besides curing the above, it is also known to be a greated powerful tonic, purifying the blood and invigorating the le short, it is without exception, in the cases mentioned In short, it is without exception, in the cases mentioned and its general effect on the system, the most officacious, as it is most discaleus, as the most officacious, as it is most discaleus, as series of control of the property of the property is as the obtaining an European reputation. The instances of cures it has effected are daily coming to the proprietor's knowledge, and he has nobesitation in recommending it one and all who desire to procure relief from suffering. One bottle being tried, its offects will be too apparent to admit of further doubt.

Hecollect Hurley's Sarsaparilla is the only genuine article in the market.

JCP Frice one dollar per bottle, or six for five dollars.

For sale at the manufactory, corner of Seventh and Green streets, Lonisville, Ky. Also, wholesale and retail by H. G. SCOVIL, and by dealers in Medicine throughout the United States, Canada and Mexico.

COMPOUND FLUID EXTRACT BUCHU For diseases of the Bladder and Kidneys, Secret Diseases, Strictures, Weaknesses, and all diseases of the Sexual Organs, whether in Maleor Female, from whatever cause they may have originated, and no matter of how long I F you have contracted the terrible disease which, when A once seated in the system, will surely go down from one generation to another, undermining the eventitation and sapping the very vital fluids of life, do not trust yourself in the hands of Quacks, who start up every day in a city like this, and till the papers with glaring Lifselboods,

HELMBOLD'S HIGLY CONCENTRATED

to; well calculated to deceive the young, and those not ac-quainted with their tricks. You cannot be too careful in the selection of a remedy in these cases. The Fluid Extract Buche has been pronounced by emi-nent physicians the greatest remedy ever known. It is a medicine perfectly pionsant in its taste, and very innocent in its action, and yet so thorough that it annihilates every particle of the rank and possoneus virus of this dreadful discuss; and, unlike other remedies, does not dry up the disease in the blood.

Constitutional Debility, brought on by self-abuse, a most

terrible disease, which has brought in by self-abuse, a most berrible disease, which has brought thousands of the human race to untimely graves, thus blasting the brilliant hopes of purents, and blighting in the bod the glorious annuition of many a noise youth, can be cured by this Infallible Remedy. And as a medicine which must beneif everybody, from the simply delicate to the confined and despairing anvalid, no equal is to be found acting both as a Cure and preventive.
HELMBOLD'S HIGHLY CONCENTRATED COMPOUND FLUID EXTRACT SARSAPARILLA, for Purifying the blood, removing all diseases arising from excess of Mercury, exposure and imprudence in

life, chronic constitutional disease, arising from an impure state of the Blood, and the only rehable and effect tuni known remedy for the cure of Scrotula, Salt Rheum, Scald head, Cicerations of the Thront and Legs, Pains and Swallings of the Bones, Tetter, Pimples on the Face, and all Scaly fruptions of the Skins.

NHS acticle is now prescribed by some of the most distinguished physicians in the country, and has proved more efficient in practice than any preparation of Sarsaparil a yet offered to the public. Several cases of secondary Syphilis, Mercurial and Scrofulous diseases have entirely recovered in the incomble wards of our Pub-lic Institutions which had for many years resisted every

mode of treatment that could be devised. These cases furnish striking examples of the salutary effects of this medicine in arresting some of the most inveterate diseases after the glands were destroyed, and the bones already Norice.-Letters from responsible Physicians and Pro fessors of several Medical Colleges, and certificates of cures from patients will be found accompanying both Prepara-PRICES, Fluid Extract of Buchu, \$1 per bottle or 6 do for \$5 equal in strength to one gallon of Syrup of Sarsaparilia.
